

HARRY DAUGHERTY REFUSES TO TESTIFY

ASYLUM OFFICERS GATHER HERE IN 23RD CONVENTION

BIG STATE SESSION OPENS WITH PROGRAM AT HIGH SCHOOL.

VISIT JEFFERSON

Extension of Agriculture Work Urged During Morning Session Wednesday.

THURSDAY'S PROGRAM

At Court House
8:30 a. m.—Addresses by Dr. J. E. Penner, Janesville; J. D. Christie, Wausau; W. F. Pinkerton, Oshkosh. Business.
10—Leave for Beloit by automobile, arriving for inspection of Fairbanks-Morse plant.
12 m.—Concert, Fairbanks-Morse band.
1:30 p. m.—Luncheon, Beloit Country club.
2—Inspection of Tippan plant, north of city, and return to Janesville.
5—Arrive School for Blind.
6—Dinner at School for Blind.
7—Concert by State School for Blind orchestra and chorus.

Extension of the public service of the Wisconsin county institutions not only as hospitalization centers but also as county agricultural centers was urged during the morning session in the Beloit country club house Wednesday of the 23rd annual convention of the Association of Trustees, Superintendents and Trustees of the County Asylums.

Governor John J. Blaine was scheduled to speak during the morning session in Janesville but it was announced he would speak at Jefferson tonight instead.

During the afternoon the visitors were taken to the Rock county asylum and farm to be shown the hospital buildings, almshouse, and the farm departments of what is considered the best equipped county farm in the state. During the afternoon a trip was made to the Jefferson county farm, where the visitors were entertained by Mr. and Mrs. William Volz.

Varied Program Given.
There was a varied program during the Wednesday morning session of interest to the attending delegates. The discussions took in medical care of patients, methods of hospitalization and then different subjects relating to the future of the agricultural departments of the county farms. The county farms, it was pointed out, were well able to become centers for agricultural development of the county, the home of practical demonstrations, experiments and centers radiating out to farmers various methods of improvement of agriculture. Several of the county farms have been instrumental in raising crop standards of the particular county by the distribution of pure strained seed and in several instances the sale of pure livestock.

Wisconsin's progress in eradicating bovine tuberculosis through the different systems of testing was explained by Dr. V. S. Larson, state veterinarian. The public health question is already related to the health of the livestock of a state, especially in dairying states such as Wisconsin. Evidences of infection of humans traced directly to the consumption of infected milk were detailed by Dr. Larson, who declared that 14 out of every 100 people are afflicted with the disease and at least half of the remaining 86 show some signs of the scourge.

"The dairy cow is the source of the most important food," it was stated, "and certainly all our county and state institutions should be the first to protect the health of their patients by having fully tested herds."

It was claimed that bovine tuberculosis was not hereditary but due to conditions incident to depriving damp stables and poor ventilation. In Wisconsin only about 2 per cent of the entire number of cattle tested show infection, while in some states as high as 50 per cent are reported. The history of the tuberculosis test was explained until in Wisconsin 50,000 head of cattle have passed the test under aro test and 4,000 head of 95,000 head of cattle have had health guaranteed by the state under the plan, favored in southern Wisconsin. The area test is now being pushed in Juneau and Monroe counties and a test made in Patton, the first county in the United States to have a complete area test.

PARENTS OF CONFESSED FRANKS SLAYERS ORGANIZE \$15,000,000 INSANITY DEFENSE

Above: The accused boys being quizzed—(l. to r.) Nathan Leopold, Jr., State's attorney Robert Crowe, Richard Loeb, and Captain William R. Schoemaker. Left, below, Sven Englund, the Leopold chauffeur who upset the boy's alibi and caused their confession. The other photos show the palatial homes of the boys. The Loeb home is above.

Chicago—Insane? While the wealthy parents of Nathan Leopold, Jr., and Edward George Bremer, are organizing a \$15,000,000 insanity defense of their sons, who confessed the kidnapping and slaying of Robert Franks, State's Attorney Robert Crowe has in mind just one purpose—that of compelling evidence that will result in certain conviction. Insanity due to overstimulation is expected to be the defense. For this reason Mr. Crowe has two celebrated alienists examine the "intellectual murderers."

Dr. William O. Krohn, specialist in the treatment of mental disease, said: "There are only two questions of any importance to an insanity defense. The first is: 'Did the defendant have the power to distinguish between right and wrong with preference to the particular act charged?' The other is: 'Had he the power of self control to refrain from doing that wrong and choose to do right, even though he has done wrong?'"

"So far I have seen no signs of any mental disorder or disease in either," declared Loeb. "Did you at any time feel like backing out of that murder?" he replied. "I did, but I didn't want to be called a quitter."

"The peculiar nonchalance of these boys is similar to that displayed in the reactions of Carl Waudner and Harvey Church after each had confessed murder and before being sentenced to death."

"Neither yet understands the significance of his act. They have not been alone and they have been treated too kindly."

NEW HEAD CHOSEN FOR TRADE SCHOOL
G. J. Ehart, Stevens Point, Is Selected as Successor to Dorrans.

G. J. Ehart, head of the vocational school of Stevens Point, will be the new head of the vocational school at Janesville, beginning with the September term. He arrived in Janesville Wednesday for an inspection of the school and to get acquainted with the vocational board. This summer he will spend at the University of Chicago, where he will receive a degree in industrial education before returning to Janesville.

Mr. Ehart was chosen from a score of applicants for the place made vacant by the resignation of J. M. Dorrans. He has been superintendent of the Stevens Point vocational school since Jan. 1, 1917. He spent two years in rural school teaching, graduated from the Beloit state normal school in the manual training department for teachers, and installed the manual training apparatus and opened the school at Wausau, Marinette county.

Six feet tall, weighing 150 pounds, Mr. Ehart had experience in shop work and has worked as a mason, in the repair department of a round house, and as an automobile mechanic in a garage, in order to get the generally useful experience. He is married and has one child.

MARX CABINET IS REINSTATED
The Marx ministry was re-instated when President Robert of Germany re-appointed Dr. Wilhelm Marx as chancellor and confirmed the members of the government which resigned May 26.

POSTPONE SHOALS FIGHT TILL NEXT CONGRESS SESSION

AGREEMENT IS REACHED ON UNDERWOOD'S MOTION.

COMES UP DEC. 3

Ford Proponents, Norris and Lodge Come to Terms Over Issue.

Washington.—Agreement was reached today by senators interested in the Muscle Shoals fight to postpone consideration of the question until the next session of congress. Senator Underwood obtained unanimous consent to bring up the Muscle Shoals question Wednesday, Dec. 3, and then it will be made the order of unfinished business.

Advocates of Ford's bid, realizing that their efforts to bring the issue to a vote had failed and that the proposed motion which Senator Underwood, announced in the senate yesterday, would be presented today to bring up Muscle Shoals for immediate consideration, would be defeated, went into conference with Senator Norris, leader of opponents of Ford's offer, and Senator Lodge, Massachusetts republican and agreed to withdraw from the fight if the measure would be brought up at a fixed time at the next session.

The congressional session now moving to its conclusion has been "notorious" for the organized propaganda to which it has been subjected. Senator Walsh, democratic, Massachusetts republican and agreed to withdraw from the fight if the measure would be brought up at a fixed time at the next session.

Some democratic leaders in congress said the question of Senator Walsh's selection had virtually been settled. The Montana senator, however, declined to comment on the reports.

READY FOR H. S. BANDS AT THE LAKE

Lake Geneva—Final preparations have been made for the entertainment by Lake Geneva of 1,141 boys, Friday and Saturday, when they attend the 15th annual Wisconsin school band tournament.

From throughout the state will compete and the members will be entertained in the homes.

Contests in three divisions of the tournament will play during the two days, the first being in the Class C division, with Williams Bay band playing at 8 a. m. and the others during the morning, every 20 minutes, being as follows: Milwaukee, Bunker, Two Rivers Vocational, Watworth, Milwaukee Vocational, Janesville, Green Bay, and Richland Center Junior.

Class B contestants compete in the afternoon, at 2 p. m. Oshkosh, Beaver Dam, Lancaster, Watford, Vilas, Milwaukee Vocational, Janesville Boys, Sparta.

The music and concert at 7:30 p. m. is expected to draw a large audience.

MEMBERS OF BLOC INVITED TO SPEAK BEFORE ENGINEERS
[BY ASSOCIATED PRESS]
Cleveland.—Senators Robert M. La Follette, Smith W. Brookhart, Henry Shipstead, Magnus Johnson, George W. Norris, and virtually all of the members of the Progressive Bloc, Congressional Group, Middlebrook, of Alabama, have been invited to address the Brotherhood of Locomotive Engineers' triennial convention, now in session here. It is expected those named will accept.

The convention also voted to send congratulations to Senator Brookhart in his address today by William R. Johnson of Washington, president of the International Brotherhood of Machinists. Sidney Wickes, Manchester, England editor outlined the history of the British labor party.

Co-operation of all labor unions politically and industrially was urged in an address today by William R. Johnson of Washington, president of the International Brotherhood of Machinists. Sidney Wickes, Manchester, England editor outlined the history of the British labor party.

Nine banks with millions in resources were listed by W. B. Prenter, secretary-treasurer of the Brotherhood of Locomotive Engineers, who said that the years the brotherhood's bank had been in operation here, property valued at \$100,000,000 had been acquired, the report said.

FRED UPHAM TO QUIT COMMITTEE
Entire New Official Staff Necessary for the Republicans.

Cleveland.—Fred W. Upham of Chicago, Republican member of the national committee, after a service of many years.

Announcement of Mr. Upham's decision was made here today after he had conferred with William M. Butler, manager of President Coolidge's campaign and incoming chairman of the national committee. There was no indication as to his probable successor.

Mr. Upham has been in rather poor health for some time and has felt that his physical condition could not permit him to undertake the task of directing the financial affairs of the party in the coming campaign.

With the retirement of Mr. Upham an entirely new set of officials must be chosen when the national committee is reorganized. Besides Chairman Adams, Secretary George B. Lockwood also is to retire. Mr. Upham is a former member of the national committee from Illinois.

Mr. Upham is a former member of the national committee from Illinois. He is the present committee man and is not a candidate.

FREE SUSPECT IN MYSTERY
[BY ASSOCIATED PRESS]
Wausau.—Henry Minch, charged with the murder of Otto Krueger, who disappeared Nov. 5 last and whose body was found in March, floating in the Wisconsin river, was discharged today at the conclusion of a preliminary examination.

Bones of Infant Found in Rubbish

Edgemoor.—The skeleton of an infant was found beneath a rubbish heap in an abandoned brickyard here, Tuesday night, by Clarence Jones and George Krueger, while at play.

The bones lay in the rubbish near the brickyard off Fulton street, and in the rear of the railroad tracks which are parallel with the tobacco warehouse.

It is believed the skeleton of the infant child, undoubtedly placed there by the parent of the child, had been there for many months, as part of the breast bones had decayed.

No further investigation is expected to be made, there being no possibility of the child's parent being traced by which the parent of the child might be disclosed. Coroner Lynn Whaley was notified.

Rumor Walsh Democratic Keynote

Washington, D. C.—Strong indications were apparent in democratic circles here today that Senator Thomas J. Walsh of Montana, probably would be selected as permanent chairman of the party's national convention in New York.

Some democratic leaders in congress said the question of Senator Walsh's selection had virtually been settled.

The Montana senator, however, declined to comment on the reports.

SETTLE CONTESTS OVER DELEGATES

Republican National Committee Meets to Decide Control Issues.

Cleveland, Ohio.—Contests for seats in the republican national convention here next week, brought by the delegates from southern states, and the District of Columbia, came before the republican national committee upon its assembling here today.

With all of the contestants pledged for President Coolidge, the question involved is one of the control of the state and district organizations. Since the delegates from Georgia and Mississippi the contest was one in which the republican national committee would find itself opposed by the organizations of the state and district.

Four delegates at large were involved in the Arkansas contest, while in South Carolina and Tennessee seating the delegates which it crossed laying claims to their legal election to the convention.

At the closing of the first delegate contest, the committee unanimously voted to send William T. Gallaher and Thomas L. Jones, the latter a negro, both of Washington, D. C., as delegates at large from the District of Columbia.

FARM RELIEF IN NEW FORM

Washington, D. C.—With the McNary-Haugen bill defeated, senators and house members turned attention to new bill to take its place in the hope of pushing it through as an emergency measure before adjournment.

The proposal, in its rough draft, would empower the war finance corporation, until July 1, 1925, to purchase wheat, flour, livestock, and meat products at prices higher than market quotations, such as \$1.00 a bushel, charging off losses, if any, against its \$100,000,000 surplus. The "ratio-raiser" provision of the McNary-Haugen bill is carried in the new measure, as the basis for determining when the corporation should enter the market.

SHENANDOAH IS BACK HOME

Lakeview.—The Shenandoah, giant navy dirigible, broke through a heavy bank of fog this morning and returned to its base about 24 hours after beginning a 1,400 mile trip over the Canadian border at Niagara Falls.

During the last few hours of the cruise the dirigible hovered in a cloud of smoke, and was seen only by radio messages and sirens on the field. It was nearly three hours after reaching Lakehurst that the ship was put into its hangar.

ITALIAN FORCE TAKES SOKIA

Athens.—The Samos correspondent of Enosis declares that Italian forces yesterday occupied Sokia, near Smyrna.

SHOOP WILL PLANS FOR INSTITUTIONS

Rockville.—The often expressed intention of the late Dr. L. I. Shoop to establish and maintain a home near North Point for the aged men of this community, is reiterated in his will which was filed in county court for probate today. Mrs. Shoop will receive the income of the estate, which is to be held intact during her life time and the plans to establish the home for aged men will not be given consideration until after her demise.

CITY OF SUPERIOR TO SELL GASOLINE AT 18.2 A GALLON

Superior.—That Superior people will be able to purchase gasoline on a set scale, was made certain in an announcement meeting of the city commission Tuesday.

The commission agreed to enter into a contract with a local gasoline dealer whereby he would install a gasoline tank in some central location.

According to the agreement, the city is to receive one cent for every gallon sold, and will be able to purchase gasoline on a wholesale basis.

FORMER ATTORNEY GENERAL BALKS AT COMMITTEE CALL

STEPS TO COMPEL HIS APPEARANCE NOT CONTEMPLATED.

CHARGES DENIED

Brookhart Will Reply Before Matter Is Dropped; Moses Expresses Dissent.

Washington.—Former Attorney General Daugherty today notified the senate committee which has had his official conduct under investigation for nearly four months that he would neither testify as a witness nor be represented further by counsel in its proceedings.

The committee had asked the former attorney general to take the witness stand on Friday as the last witness before the extraordinary report is submitted to the senate.

No formal subpoena had been issued for him, however, and committee members have indicated they would make no steps to compel his appearance.

Paul Howland, attorney for Mr. Daugherty, read the committee a statement by his client, declaring that "certain members of the committee" had made a desperate attempt to "blacken" his reputation and denying that he had "profited in any illegal, corrupt or unethical way" from his tenure of office.

Mr. Daugherty's statement also declared the federal court in Ohio, in the litigation between the committee and himself, Daugherty, had held the committee to be engaged in an "illegal proceeding." He therefore gave notice that his lawyers would withdraw.

Chairman Brookhart declared the statement was a "reflection" on the committee, and said that he intended to reply before letting matters go further.

"I have proved the existence of a criminal conspiracy in Mr. Daugherty's household," Senator Brookhart declared. "We have proved that the exact returns of Mr. Daugherty when he took office showed he had no money, but that before he left office he had \$20,000 on deposit in his brother's bank."

Chairman Brookhart also referred to the indictment of Senator Wheeler, the committee prosecutor, as a "frame-up" attempt, and then left the committee room.

Senator Moses dissented from the committee's action. "I am not a member of the committee," he declared, "and I do not want to express 'some dissent' from the charge."

Senator Howland, with George E. "Frank" Davis, his associate, then left the committee room.

Former Attorney General Daugherty's statement to the senate Daugherty committee follows:

"I have acknowledged through my counsel, your verbal suggestion of the 21st ult. that I appear before your committee on Friday, June 6, this is the first intimation I have had from your committee that I was to be accorded the privilege of a hearing, and up to this time, of course, have had no opportunity of calling witnesses on my behalf or on behalf of the defendants in the case."

"I am definitely replying to your suggestion, that I appear before your committee, I wish to call your attention to certain matters which seem to me to be pertinent in this connection."

Deals to Aldes.

"The great volume of business of the department of justice, so diversified that it touches every branch of the government, has been handled in detail by the various assistants to the attorney general, but under the general direction and supervision of the attorney general himself. In order to arrive at a correct judgment regarding any particular case, it is absolutely necessary to get into the details of the case, and that case in charge, and who, having access to the files of the department, can fully and accurately advise the committee in every detail in connection therewith."

"It would be absolutely necessary for me or any attorney general to refer to the assistants and the files before I could with any degree of satisfaction advise the committee in connection with any case."

"I would have full access to and use of records and files pertaining thereto, and are familiar with every phase of such cases, and have given advice to the committee in connection with my appearance."

Would Have Fines.

"The adoption of such a course would in all probability eliminate the committee from its function."

Inoxicated Trio Fined by Taylor

Orderville.—Three Beloit men were fined here by Justice Charles Taylor for intoxication, being arrested Sunday night by Constable Jones. The men gave their names as Jack Berkner, John Jones and Lars Peterson.

Berkner, driver of the motorcar, was fined \$100 and costs, or 60 days in the county jail. Jones and Peterson were fined \$25 and costs.

Berkner elected to serve his sentence in the county jail.

ASHLAND WOMAN IS SHERIFF CANDIDATE

Ashland.—Mrs. A. T. Reinhold has announced that she will be a candidate for the office of sheriff at the coming election. It is understood she is backed by the Women's Christian Temperance Union, and that she is out on a dry ticket.

THE WEATHER

Generally fair tonight and Thursday; somewhat warmer tonight.

WITH THE FARMERS

Farm Bureau Official Information

REPORT IS MADE ON CREAMERY POOL

Chippewa Falls, Wis. — The Wisconsin Cooperative Creamery pool, organized last December, has enrolled a total of 1,000,000 pounds for marketing this year, with prospects for increasing this to more than 15 million pounds, according to a report submitted to the annual convention of the state association here by Mrs. Anna L. Mattson, state secretary.

Monthly meetings of the various districts of the pool, more business-like and extensive records of creameries, more attention on sanitary conditions of creameries, higher standards for cream and butter and change in the present system of licensing creameries of the state were among the more important recommendations made to the state association by Mrs. Mattson.

Use Business Methods. "The average individual creamery is not business-like enough in keeping its records in managing its manufacturing operations," Mrs. Mattson declared. "Too many of the creameries are run on a haphazard basis. This is pure poison. We must learn to be as business-like in managing our creameries as our competitors."

"Creameries should beware of the desire for expansion to the detriment of the neighbors. They must learn to develop their own territories and not seemingly want to take business away from another. As long as methods of unfair competition exist, we cannot hope for one hundred per cent of membership in our association."

Improve Standards. Mrs. Mattson declared that expansion has not meant complete replacement of machinery. In a creamery takes place every ten or twelve years. She said that the average annual output for machinery is about 100,000 pounds. The replacement of 500,000 pounds should be \$5,000 and urged operators to take note of such expenses and the need of replacement.

The state secretary stated that unless steps are taken to improve standards of the cream and butter products of the state, good markets will gradually disappear. Employment of a state sales manager by the association also was advocated. The state licensing law for butter-makers is more drastic, Mrs. Mattson said. It should be made more stringent, she said.

THE SMALLEST CALF. Long has the debate raged warm in southern Wisconsin on the heaviest calf.

New comes Rock county with the claim on the smallest calf that lives. Dr. R. L. Brown, Janesville, reports that a Guernsey calf was dropped from one of the cows at the John J. Kennedy farm weighing only 30 pounds. The small addition of a fine young calf is doing fine at the age of 25 hours.

PRIZE FAIR BOOKS. Premium books of the Janesville fair, August 5, 6, 7, and 8, are to be ready for distribution in another week, say fair officials. The premiums have been raised to \$15,000, including \$1,000 for junior club prizes. The fair again to feature the junior exhibits.

ADOPT AMERICAN LAWS. Paris — American child labor laws will be adopted by Greece. It was announced when the general Federation of Women's Clubs asked the near east relief organization to formulate a code for the Greek government.

NO FURTHER DEMANDS. Atlantic City — Representatives of the Amalgamated Association of Iron, Steel and Tin Workers agreed to make no further wage demands affecting approximately 30,000 workers throughout the west.

MEASLES SPREAD HALTED IN CITY

Disease Reached Its Height During May With 69 Cases Reported.

With 122 cases recorded, May was the worst month of 1924 for contagious disease in Janesville, according to the monthly report of Dr. Fred L. Welch, city health officer, to City Manager Henry Traxler. The spread of measles during that month accounted for the heavy report, this disease alone accounting for 69 of the 122 cases.

Observing all the necessary precautions of isolation and non-attendance at school until fully recovered, the combined efforts of the city health department, school officials and parents have resulted in a halt being put to the spread of the disease. While it has not been entirely stamped out, comparatively few cases are now being reported and it is believed a city epidemic has been prevented.

Other contagious disease cases reported by Dr. Welch's May bulletin are: Tuberculosis, 26; of which 24 were listed at the Anti-Tuberculosis clinic; whooping cough, 12; chicken pox, 11; diphtheria, 2; scarlet fever, 1; measles, 1; and encephalitis lethargica, 1.

Many Examinations Made. The unusual prevalence of measles caused considerable extra work for the health officer during his month, the greatest amount of time being devoted to examination work. Dr. Welch reports the making of 163 examinations for communicable disease in May.

He lists his other activities as follows: Complaints investigated, 16; inspections, 14; calls for disinfection, 12; calls at detention hospital, 1; cases of communicable disease seen with physicians, 2; placards removed, 5; throat cultures, 4; sneezers cleaned, 1; calls at schools, 2; check-up on contacts, 6; calls into country, 1; physical examinations, 3; permits, 10; letters, 42; and notices, 42.

Nurses Are Active. Both municipal nurses found May a busy month. Miss Hulda K. Andrews, visiting nurse, reported a total of 200 visits to 123 patients and in addition 52 hours of office work and 29 interviews. Miss Andrews spent considerable time in follow-up work of the antitubercular clinic, and participated in two child welfare clinics, declaring that she notes a growing interest among mothers regarding conditions of their children. Layettes furnished by women's clubs were provided in two cases and gauze was given by the city in others. Two cases were referred to the Kiwanis clinic and one woman was placed in a home.

Miss Gracie M. Anderson, nurse, reports the inspection of 329 children in 15 schools, finding 199 with defects. Forty cases of absence were indicated and 12 were excluded from school. Defects reported in children examined during May are as follows: Teeth, 190; tonsils, 153; vision, 60; hearing, 40; nasal breathing, 23; glands, 117; bones, 8; garters, 69; and nerves, 36.

Clean-Up Week Promoted. Dr. L. J. Woodworth devoted much of his time during May to arranging and directing the annual Clean-up week.

For the month he reports 140 inspections of stores handling food, investigation of 32 complaints, and 197 interviews. The complaints were as follows: Garbage, 17; dumping, 19; toilets, 11; others, 3. The 140 inspections were made as follows: Bakery, 11; confectionery, 12; grocery, 40; hotel, 4; meat market, 10; restaurant, 19; saloon, 12; soda fountain, 22; miscellaneous, 10.

Other work consisted of: Alley inspections, 25; office work, 71 hours; milk inspection, 7 hours; notices sent, 49.

Two Ralls Made — The police department made two ralls this week at places on Eastern avenue but failed to find evidence of liquor violation at either.

Country School Pupils Will Get Diplomas June 17

The date for the annual county commencement for the eighth grade graduates of rural schools has been announced by County Supt. C. T. Longbottom. The exercises will be held at the Janesville high school June 17. Supt. C. T. Walker, Delavan, will give the address.

The county contests in spelling and arithmetic will be held during the forenoon.

Grading of diploma examination papers has not yet been completed by the county superintendent's staff, so the list of graduates has not been announced.

FIRE TRUCKS USE 50 GALLONS OF "GAS" Fire department cars and trucks traveled a total of 254 miles during May, according to the monthly report of Chief C. J. Murphy to the city manager. Of this mileage, the chiefs car accounted for the most, 207 miles. The report shows the trucks used 53 gallons of gasoline and six gallons of oil, with four gallons of gasoline used for cleaning motors. The gasoline consumption figure does not show the true mileage per gallon as the engine of each vehicle is started every morning a few minutes before seven and run until after seven o'clock. Thus the shift coming on duty at that hour knows that the machines are all in good running order.

YOUTH IN COURT ON COMPLAINT OF GIRL Ray Leffler arranged in municipal court Tuesday on a statutory charge involving the parentage of a child born May 25 to Ella L. Verch. He demanded an examination which was set for June 30 and bail was fixed at \$1,000. H. H. Ryan appeared for him.

HUBER NOMINATION PAPERS CIRCULATED Nomination papers are being circulated in Janesville for Senator H. A. Huber, Stoutport, a candidate for the office of lieutenant governor of Wisconsin. Senator Huber is the author of the Huber commitment law. He is seeking the republican nomination.

Wellesley exhibit; Miss Hazel Weir-
leik, the Vassar, Smith, Lawrence col-
leges and University of Michigan
groups; Mrs. C. E. Antidahl, Beloit
college; Mrs. Frank Holt, University
of Wisconsin; Miss Grace Mount, Rip-**

**ton college; Mrs. A. R. Cullins, Mil-
waukee Downer.**

**Dean Adams gave a short talk in
which she stressed the graduates to
consider higher education for the fu-
ture. Tea was served in the sun par-
lor and dining room. In the sun
room, table decorations were made of
an electric lighted fountain, lilacs of
the valley and lilacs. The dining
room was decorated with lilacs of the
valley, violets, sweet peas and tulips.
Music was furnished by two musi-
cians from the George Helt orches-
tra. Madames A. C. Touch, Frank
Sutcliffe, L. B. Jackson, and Frank
Sutcliffe assisted the hostess in
pouring.**

Women Sew:—The L. W. club
met Tuesday night at the home of
Mrs. Edward Puchman, 263 South
Academy street. Sewing was the
diversion and at 10:30 a lunch was
served at a table decorated with
lavender flowers. The next meeting
will be with Miss Ethel Dolan, 845
St. Lawrence avenue, Beloit, June
17.

are new. The following items are chargeable at
the rate of 20 cents a count line average 6 words
to the line. Ordinaries: Cards of Thanks; Notices
of any kind where a charge is made to the public.

Cotton.

The situation in the cotton business is worrying
the textile manufacturers of the United States. It
is one industry in which there is decided depression.
Cotton is high in price and there is no hope,
with the acreage planted, that the raw product
will be much lower. Nor with the present wage
scale, higher than ever before in the eastern textile
mills, can production costs be lessened. Heavy
importations of cotton goods made under far less
inviting surroundings and at wages far below
those paid in the United States, have been another
factor in stagnation. In fact cotton furnishes the
one industry where there is no pleasant outlook
for this time and the basis for much of the talk
of depression.

With a foreign market curtailed by foreign
competition and our own domestic market as-
sailed by the same importations, by factors cap-
able of underselling the American manufacturer
after duties are paid, the outlook is not pleasant.

There is almost a buyers strike in cotton goods.
The purchases have fallen off to a remarkable
extent and the keen competition in securing what
trade there is has made much profitless trading.
A recapitulation of all causes as explained by a
half-dozen expert investigators, arrives at the
same interpretation that the hand to mouth buying
in the hope that prices will be lowered will
only stop when it is realized that there is no pro-
spect for such a result at any period within the next
year or more. In the meantime unemployment
in the textile industry is larger than for the last
two years and a wage disturbance may follow.

It is a great relief to know that Mussolini is
satisfied with Mussolini's government in Italy.

The Passing of the Sentinel

The Milwaukee Sentinel after a long and
respectable life of some 52 years has been absorbed
by the Hearst publications. Once the pride of the
state, with a splendid record of stability and pa-
triotic devotion to the public interest, edited by
men like Rufus King and Horace Rublee, it has
at last succumbed to modernist influences and
gone over to the greatest newspaper combine ever
known in any country. What and how far that
combination influences the nation now or will
later on, is a question all publishers are asking.

If the Sentinel has been on the down grade in
the last few years, it has been because it has gone
away from its early traditions and represented
personal interests rather than those of the pub-
lic. Once it was the voice of a great body of the
citizenship of Wisconsin. Its editorial policy re-
flected the summed up thought of the men who
made the state. It stood staunchly by the union
in time of great travail. It did not waver in the
days of reconstruction. It stood for progress and
advancement, for the very best there was in mor-
als and for the highest type of citizenship regard-
less of wealth or influence which might have
swayed it from the path it had chosen to follow.

But it has gone far afield since that time. It
has made no constructive fight. It has been con-
stantly on the defensive. There is no room for a
newspaper which has no soul; no room for a
newspaper that is not aggressive in news and pol-
icy, no room for a newspaper that cannot fight for
the sake of fighting for right and for justice.
This is a time, not for side-stepping but for plain
speaking. Newspapers are dying or being bought
by millionaires, syndicates or rich individuals in
order to sway the public with time serving meth-
ods or along lines of least resistance. The coun-
try is becoming crowded with flapper and jazz
newspapers singing falsetto and with sensation
gone to seed. The answer to criticism is the reply
of the purveyor of semi-indecent amusements, "It
pays."

We believe there is a place for the newspaper
that will be open to the public, that will print the
news honestly, that will be fearless and square, that
will never be misunderstood and that the public
may always know where and for what it stands,
and that it shall not be swayed in its publication
by wealth, power or influence, nor of destructive
and mercenary class movements which are de-
magogical and promise one thing and intend an-
other. One extreme is as bad as another.

The people and not the United States senators
will nominate Coolidge.

The New York Times calls Senator Norris, "a
Lafayettean nondescript" in politics. That ought
to be enough to cause a fight anywhere.

There should be no objection to anyone who
wants to aid his political party by making a con-
tribution for expenses, providing that aid is given
without ulterior motives. And by the same token
there should be no objection to the publicity of
such contributions as provided in the bill recently
adopted by the senate as introduced by Senator
Borah. In these days of the high cost of living
and primary elections, where a single letter mailed
to each voter in the average state, amounts
to nearly \$50,000, the limitation of expenses to a
small sum is worse than useless. The whole diffi-
culty rests here. The voters can decide whether
the candidate is trying to "purchase" his election
or not if there is full publicity of election ex-
penses.

French presidents have no real fear about re-
signing their offices. It is quite different there

INDIAN CEREMONIALS

By FRIDERIC J. HASKIN.

Washington.—Indian ceremonials are rarely un-
derstood by other races and consequently the typi-
cal dances have often been unjustly
criticized, says N. B. Hewitt, of the Smith-
sonian Institution.

The white man is extremely glib when it
comes to believing fantastic tales about the red
man. It is no rare occurrence for a witness to ap-
pear at a congressional hearing and to testify re-
garding the evils of Indian dances and later to
admit that he has never seen the objectionable
rites.

Furthermore, the white man must plead guilty
to a lack of sympathetic imagination when he ob-
serves the Indian. Aside from some ethnologists,
people who do attend Indian ceremonies gener-
ally see only the gyrations of painted savages.
Sometimes they can not refrain from showing
their amusement and scorn. Sometimes they of-
fend the Indians seriously.

One man who was present at a Navajo snake
dance grew righteously indignant at the sight of
venomous snakes, handled by the dancers who
even placed them in their mouths. When one of
the replicas was laid on the ground the visitor im-
pulsively took a soda pop bottle and tried to kill
it. The white man was the Indians' guest, but the
snake represented some religious symbol to the
dancers, and it was, for the time being, an object
of veneration. Guest as he was, the rash out-
sider jeopardized his life.

Mr. Hewitt says that the ceremonies of the In-
dian are incorrectly called pagan. No people have
held a more reverent attitude toward nature and
the Master of Life than the Indians, he says. By
their symbolism they built up a system of asso-
ciations that was the basis of their religion. They
even placed their gods in the elements. When one of
the replicas was laid on the ground the visitor im-
pulsively took a soda pop bottle and tried to kill
it. The white man was the Indians' guest, but the
snake represented some religious symbol to the
dancers, and it was, for the time being, an object
of veneration. Guest as he was, the rash out-
sider jeopardized his life.

JUST FOLKS

By EDGAR A. GUEST.

THE MANY.
Some go sailing out to sea
For a glimpse of the thing called poetry.

And some may find this precious yield
In a clump of woods or a clover field.

A few there are may ride the sky
And catch its thrill where the eagles fly.

Some in a soldier's camp may hear
The voice of mystery whispering near.

But oh, for the many there cannot be
The clover field or the changing sea.

They must dream their dreams till the sun goes
down

'Mid the cold gray walls of the busy town.
Not for them are the sun and the moon.

They must find their God on the city streets.
In the drab, dull tasks must the many find
Beauty and courage and peace of mind.

Yet I watch the throngs as they come and go,
And something is keeping them brave, I know.

And there's never a life so bleak and bare
But something lovely is cherished there.

(Copyright, 1924, by Edgar A. Guest)

HOROSCOPE

THURSDAY, JUNE 5, 1924.

One of the luckiest of days has dawned, ac-
cording to astrologers who find that Venus, Nep-
tune, Mercury and Uranus are all in benefic as-
pect.

It is a day fortunate for lovers, making for
sympathy, understanding and constancy.

Weddings that take place under this plan-
etary sway should be most happy, bringing for-
tune with added years, harmony and long life.

Hotels and all places of public assembly are
subject to the best possible rule. Much travel
and many excursions apparently will mark the
summer months.

Fashions and manners are to be discussed as
never before inasmuch as changed conditions are
to be revealed sharply through some great event.

Marriage laws are to be criticized and divorce
is to become so frequent that national move-
ments will be organized to stop the decadence of
family life, the seers forecast.

From the stage as well as the pulpit protests
against immorality are to be heard as never
before. If the stars are read aright.

Acad there will be new discoveries of oil and
mine excitement over speculative projects.

This should be a lucky day for traveling and
should bring pleasure to those who start on trips
under this planetary direction.

Uranus is in an aspect supposed to quicken the
perception and to impart keen vision.

Uranus also is believed to give power to dis-
tinguish wisely in important matters and
through this to perceive faults that may bring
disasters.

Men will be discovered more sensitive to po-
litical conditions than women are in the coming
national campaign, it is forecast.

Persons who have been in the habit of having a
lookout for the future in business and in social
affairs all should be happy. The young will
court and marry.

Children born on this day probably will be
great favorites and able to win friends every-
where. These children, if properly reared, will
prosper greatly and pass pleasant lives.

NEWSPAPER TALK

New York plans a bridge costing \$250,000,000
to connect Manhattan with New Jersey. New
Yorkers highly appreciate a chance to get out.
—Chicago News.

A friend of ours is both doctor of medicine
and an attorney-at-law, but is equally qualified
to cut a man's leg off or pull it. —Cleveland
Plain Dealer.

The poet who sings of "the shade of night
and elegant lady" knows the great American
porter all right. —New Brunswick Daily Home
News.

HISTORY OF TODAY

TODAY'S EVENTS.
The national convention of the prohibition party
assembles at Columbus, Ohio, to nominate
candidates for president and vice-president.

This committee on credentials of the republican
national committee is in session at Cleveland
today to consider contested seats of delegates.

The biennial convention of the General Federa-
tion of Women's Clubs, the largest gathering of
women in America, begins its sessions today in
Los Angeles.

TODAY'S ANNIVERSARIES.
1810—Countess of Blessington (Marguerite Pow-
er), one of the most brilliant women of the
nineteenth century, died in Paris.

1857—Celebration of the completion of the Ohio
and Mississippi railroad, connecting Cin-
cinnati and St. Louis.

1874—Benjamin H. Bristol of Kentucky became
the first man to be elected governor of his state
in 1874.

1893—The island of Formosa was transferred to
Japan.

1899—General Laubert of France was attacked by
a mob at the races.

1913—Directors of the Ford Motor company voted
to increase the capital stock to \$2,000,000
to \$3,000,000.

1920—President Wilson vetoed the bill providing
for the establishment of a budget system.

1922—President Harding signed the Confed-
erate Memorial day exercises at Arlington Na-
tional cemetery.

OSK KAIR AG TODAY.
Supreme court of the United States nullified the
year-time laws of various states, making it unlaw-
ful to teach any language but English in the
schools.

TODAY'S BIRTHDAYS.
Thomas F. Bayard, United States senator from
Delaware, born at Wilmington, Del., 50 years ago
today.

Catharine Waugh McCallister, noted Chicago
lawyer and equal rights leader, born at Hainscon-
ville, N. Y., 62 years ago today.

LOOKING BACKWARD

FORTY YEARS AGO

June 4, 1884.—Mrs. H. S. Conner and daugh-
ter, Miss Lucy, and Miss Hattie McKee have re-
turned from the south, where they have spent
several months. A severe storm wrecked sev-
eral small buildings in Fulton yesterday, includ-
ing two tobacco sheds belonging to Elias Hurd.

THIRTY YEARS AGO

June 4, 1894.—E. J. Stevens of this city,
will leave for Europe tomorrow.—The Monterey
wagon bridge has been surface planked with
three inch timbers.—Hon. Alexander Graham
Bell presented the Men's Sunday Evening club of the
Congressional church at New York. The new
Concordia hall will be dedicated tomorrow night.

TWENTY YEARS AGO

June 4, 1904.—The high school annual, "The
Phoenix," was issued today. It is dedicated to
Supt. Powell. Ruth Elford was editor-in-chief,
and was assisted by Lee W. Brown, George Cal-
low, Ethel Mitchell, Grace Whitworth, Roberta
Keller, Clara M. Jones, Harvey Bailey, and Julia
S. Lovejoy.

TEN YEARS AGO

June 4, 1914.—Nearly 200 people attended the
reception tendered for the Rev. W. H. Thomsen at
the West Side Odd Fellows hall last night. The
affair was to welcome Mrs. Thomsen to Janesville.
The Rev. W. A. Johnson of Capron, Ill.,
and the Rev. E. C. Hoffmeister, pastor of the
English Lutheran church gave addresses.

WHOSOEVER

will come after me, let him deny
himself, and take up his cross,
and follow me. For whosoever will save
his life shall lose it; but whosoever
shall lose his life for my sake
and the gospel's, the same shall save it.

—Mark 8:34, 35.

Personal Health Service

By WILLIAM BRADY, M. D.
Noted Physician and Author.

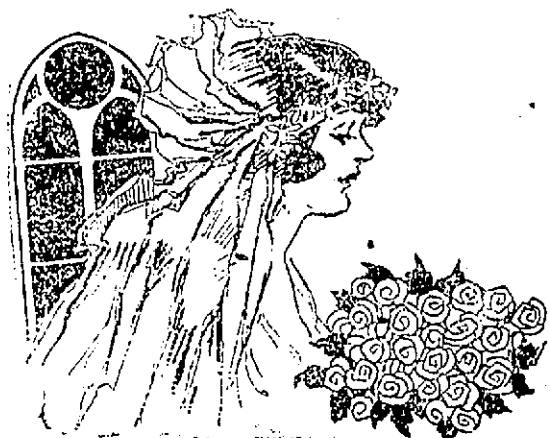

HOMEWORK INTERFERES WITH STUDY
The most exacting homework hounds.
They count on half an hour of
the daily class period by passing
over the homework stunt—assigning
the morrow's dose and scolding and
stewing over the shirking of today's
dose. This is a great help to in-
competent teachers—it helps them to kill
time which otherwise would be a
heavy strain on their incapacity. Let
me size up the staff of a given school
and I can estimate the amount of
"homework" in that school—it varies
inversely as the ability of the staff.
Or the thing can be estimated by ob-
serving the excessive amount of
trickery, subterfuge and faking of
"pupils" among the pupils—these
natural consequences of the home-
work evil likewise vary inversely
with the ability of the staff. The
amount of time for homework is the
highest mark from the poor teacher.

QUESTIONS AND ANSWERS.
Lacquer Fumes.
What effect lacquer fumes have on
a person working in it all day? (C.)

benzol, lead, wood alcohol, turpentine,
and irritants or poisons which lacquer
materials are exposed to. Of these per-
haps benzol is the most dangerous—
it is a solvent of the blood, causes
headache, vertigo, muscular tremor,
scurlit lips, spots like black and blue
spots under the skin, convulsions, and in
some cases fatal degeneration of the
heart, kidneys and liver. Special ven-
tilation, equipment, shields for the face,
is the best protection of the worker
from this risk.

Backbone Pulling.
Please inform me how backbone pull-
ing makes one bow-legged? Does it
widen the hips? The most I have ever
heard of is that it makes one bow-
legged. It neither makes one bow-
legged nor widens the hips.

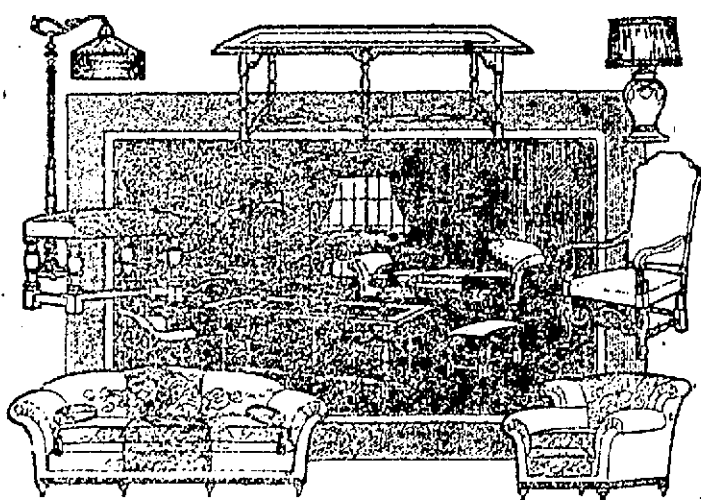

Childbirth Obstacles.
Will childbirth be made more making
difficult by the use of the "C-section"
method? If continued will it cause
childbirth obstructions?

Answer—I don't see how it could
cause childbirth obstructions. But, gen-
erally, the "C-section" method is a
method of avoiding the difficulties of
childbirth. It is a surgical operation
which is performed on the abdomen
and the uterus is cut open and the
child is removed. It is a method of
avoiding the difficulties of childbirth.
It is a surgical operation

Farnum's June Bride's Sale

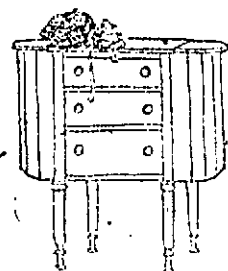

This page isn't large enough to list all of Farnum's special bargains. We can only list a few outstanding items—outstanding because of their superior worth and reasonableness in price. We strongly advise Mrs. Bride and Young Husband to make this big store a visit.
